

FOR THE BLOOD BROWN'S IRON BITTERS

Combining IRON with PURE VEGETABLE TONIC, quickly and completely CLEANSES and ENRICHES THE BLOOD. Quickens the action of the Liver and Kidneys. Clears the complexion, makes the skin smooth. It does not injure the teeth, cause headache, or produce constipation—ALL OTHER IRON MEDICINES DO. Physicians and Druggists everywhere recommend it.

Dr. N. S. ROGERS, of Marion, Mass., says: "I recommend Brown's Iron Bitters as a valuable tonic for enriching the blood, and removing all dyspeptic symptoms. It does not hurt the teeth."

Dr. R. M. DELELLI, Reynolds, Ind., says: "I have prescribed Brown's Iron Bitters in cases of anemia and blood disease, also when a tonic was needed, and it has proved thoroughly satisfactory."

Mr. Wm. BYRNE, 26 St. Mary St., New Orleans, La., says: "Brown's Iron Bitters relieved me in a case of blood poisoning, and I heartily commend it to those needing a blood purifier."

Mr. W. W. MOWMAN, Tusculum, Ala., says: "I have been troubled from childhood with impure blood and eruptions on my face—two bottles of Brown's Iron Bitters effected a perfect cure. I cannot speak too highly of this valuable medicine."

CHAIRMAN LEE'S ANSWER.

HIS REPLY TO PRESIDENT CORBIN'S LATE STATEMENT.

As Chairman of the Railroaders' Committee He Declares It Void of Truth, and Says the Railroad Officials Forced the Issue—Chicago Printers—Labor.

POTTSVILLE, Pa., Jan. 28.—Chairman Lee has just issued his reply to President Corbin, of which the following is a copy:

"Mr. Corbin's statement of the railroad trouble, and what he calls facts, is known to be an untrue statement, to mislead the public as he attempted to do in the miners' case, but failed. Mr. Corbin says the employees of his company at Port Richmond in charge of the switch engines refused to transfer the elevator company's goods consigned to them, and for refusing were discharged."

CHAIRMAN LEE.

"Now, we ask Mr. Corbin: Was he not aware that the general superintendent, Mr. Sweigard, had entered into an agreement that none of the employees of the company should be discharged without a fair and impartial hearing? I will refer Mr. Corbin to Article 13 of the agreement signed by Mr. Sweigard. When the committee waited upon Mr. Sweigard he refused to comply with the articles of agreement, and he further refused to hold any conference with the committee. The police and Pinkerton men were sent to Port Richmond, and were on the company's property, intimidating the employees, before any strike had taken place. This fact alone, Mr. Corbin, justifies the people in saying that this strike was premeditated by the officials of the Reading Railroad company. Bear in mind, Mr. Corbin, your subordinates discharged the men at Elizabethport without acknowledging the agreement between the company and its employees."

"We now would like to call the attention of Mr. Corbin to the fact that the company, or its representative, Mr. Sweigard, has made objections to labor organizations, and stated that they would wipe out the Knights of Labor. Finally, on Saturday, the 24th day of December, the general manager issued an order that the names of such employees as did not report for duty on the morning of Tuesday, the 27th day of December, would be stricken off the rolls, and their places filled by new men. That was done."

"Right here, Mr. Corbin, we place our side of the case before the people, and say that was not done. When our committee visited Mr. Sweigard on Monday, December 20th, the committee agreed with Mr. Sweigard to make an unconditional surrender to him for the discharge of the five crews, together with Bernard Sharkey and Ambrose Heide, and then agreed to obey the order issued by General Manager McLeod, that the men who did not report for duty would be discharged."

"Now, right here, Mr. Corbin, we would like to ask you did the company carry out the orders issued by the general manager when the subordinates under the general manager discharged all the prominent men along the entire line of the road who complied with order of Saturday, December 24, and did go into effect Tuesday, December 27? Who is at fault in this difficulty—the men who obeyed the order of the general manager or the officials who disrespected Mr. McLeod and his order of Saturday, December 24?"

"Mr. Corbin says: 'No man shall be ostracized on the road because he belongs to a labor organization. All that is expected from our employees is to render faithful service and obey the management.'"

"If Mr. Corbin means what he says, and will act accordingly, there is no good reason why he will not hear our side of the case, and when he gets the men's side of this case, he cannot say they refused to obey the order of the general manager, and if his officers have lost their heads and caused the strike, why not shoulder the responsibility where it belongs, and start your mines and railroads, and do not let the public suffer any loss and inconvenience on account of the action of a few stubborn officials over whom you have absolute control. The trouble was caused by them, and it is the opinion of the general public that it is your duty to end the trouble."

JOHN L. LEE,

"Chairman of Executive Committee."

Chicago Printers Alarmed.

CHICAGO, Jan. 28.—The Chicago printers are alarmed over the prospect of a big reduction in wages. An officer of the Typographical union says he has information that the job and book printing firms of this city want to make Chicago a center for cheap book publications and reprints, and for that purpose intend to reduce the scale to twenty-five cents per 1,000 ems. The union scale is forty cents. If the reduction is made the union scale will have to be suspended, or the men must strike. After late strike the union is now in no condition to go on a strike again.

How the Striking Miners Stand.

POTTSVILLE, Pa., Jan. 28.—There seems to be an impression that the striking miners have cut loose from the railroad's. The following will explain how they stand: Sub-District No. 12, National District 135, Knights of Labor, represents that part of the organized miners who are Knights of Labor, and is entirely distinct from the Amalgamated Association.

The sub-district miners and the railroads belong to a common brotherhood, the Knights of Labor, and it is mainly through their exertions that the contest between the railroads and miners is made a joint one. The sub-district miners and the railroad Knight of Labor assemblies have officially declared the cause a common one. The Amalgamated, we believe, have not officially so declared, but have always decided, act in matters pertaining to the miners' strike collectively with their co-miners' organization, thus being tacitly held, though not officially, to the endorsement of the common contest for supremacy of labor and capital.

It is the Knights of Labor miners which have passed the stringent order, that no coal should be mined for scab railroads to handle. And, as stated above the Amalgamated miners, while not officially endorsing this action, yet have all along tacitly agreed to support it by renewing their allegiance at each recurring meeting to the Knights of Labor miners' organization, and continuing the existence of the joint committee, which is composed of representatives of both these miners' organizations, and which is the joint official executive body or committee of the two, that sees to the carrying out of all orders emanating from either, or both, the miners' union.

It should be borne in mind hereafter, the status of the several organizations when it is said they are united. The Knights of Labor members, at mines and on railroads, are solidly so; the Amalgamated are inferentially so. There are very few Knights of Labor working anywhere in the region, either railroad or mine employees; the majority of union men now working for individuals at the advance are Amalgamated members, who, at every meeting of that body, argue the question of being permitted to work wherever offered the advance, but the leaders and active members have thus far been able to hold them pretty solid against this contemplated general break in the ranks, although there are isolated cases at Herbine, William Penn and other points where Amalgamated men continue at work. The Amalgamated association held an important meeting here on Wednesday and Sub-division 12 was in session both Wednesday and Thursday.

Milwaukee Brewers.

MILWAUKEE, Wis., Jan. 28.—The walk-out of brewery employees which was expected to take place this morning resulted in less than sixty men leaving their work. At Jung & Boehrert's brewery, where eighty men are employed, but seven agreed to forsake the union and remain at work. The remaining seventy-three were paid off and went their way, looking rather blue. At Falk's brewery, which also employs about eighty men, eleven decided to cast their lot with the union. At Best's brewery a few men, Charles Best, secretary of the company, said not more than fifteen remained away from work. At the Obermann, Gettleman, Miller and the Cream City Brewing companies' establishments all the men are at work. At Schlitz Brewing company fourteen men left, and at Blatz's fifteen quit work.

Collieries Slowly Resuming Work.

READING, Pa., Jan. 28.—Information from Shenandoah says that all individual collieries there will be in operation by next Tuesday. The Reading company has five collieries in operation to-day. The report that the miners struck at William Penn last evening is denied. The breaker was compelled to stop on account of the storm.

Will Reduce Wages Forty Per Cent.

NEW BRUNSWICK, N. J., Jan. 28.—It is understood that Janeway & Company, one of the largest wall paper manufacturing firms in the country, have notified their employees that they will be obliged to reduce wages 40 per cent. for the present owing to dull trade. If the employees strike they will have to close the factory.

WASHINGTON NEWS.

Mr. Theobald Still Looking After His Interests—A Monster Petition.

WASHINGTON, Jan. 28.—Mr. George H. Theobald is still here looking after his interests and will not likely return home for several weeks. It is understood that a formidable effort is now being made by every industrial organization throughout the country to obtain signatures from the labor classes protesting against the action of congress in denying an investigation in the Theobald-Carlisle contest.

It is believed that in a few weeks probably the largest petition to congress on any subject will be forwarded. It is claimed by those who are thoroughly posted that it will cover no less than 1,500,000 signatures. It takes in the Knights of Labor, George party, trades unions and other co-ordinate organizations. This document will not ask for a reopening of the case, but is simply in the shape of a solemn protest by workmen against the action of what they believe to be a monopolistic conspiracy against the interests of labor.

Sensational Divorce in Prospect.

WASHINGTON, Jan. 28.—Mr. Grace Bulkley, who eloped with Beatie Hillyer in last December, and about whose elopement there was much gossip at the time, has now separated from his wife. Each is now living with their respective parents. Divorce proceedings will probably follow and prove sensational.

OHIO LEGISLATURE.

Senator Wallace's Bill—Petitions for Alcoholic Instructions.

COLUMBUS, O., Jan. 28.—Senator Wallace put in a bill this morning which is designed to prevent obstructing the streets of Columbus by railroad cars. It makes it punishable to obstruct a street longer than two minutes at a time with ten minutes interregnum. In case of the death of any one through violation of the law, the trainmen are punishable for manslaughter.

A great number of petitions for the passage of a bill requiring school instruction in the effects of whisky and tobacco were presented.

The Bund fuer Freiheit und Recht asked for a consolidation of Cincinnati and Hamilton county, and Mack introduced a bill to that effect.

The house did little but discuss bills and the report of the committee on rules, which recommended substantially the same rules as those governing the last house.

New York Democrats.

NEW YORK, Jan. 28.—The following Albany special to the Sun tells briefly the story of the meeting of the Democratic state committee: "The Democratic state committee failed to make a choice of a man to represent New York in the National committee. They met at the Delavan house, and after thirty ballots adjourned at midnight, without day. The vote was seventeen for Roosevelt, F. Flower and seventeen for William J. Mowrey on each ballot. This leaves the state without a representative on the National committee. It was a square up and down fight between the friends of the president and the friends of the governor, and neither won." The Times, Herald and Sun make no editorial reference to the meeting, but the Times in its headlines calls it "A Victory for Cleveland."

BALFOUR'S UNEASINESS.

MR. O'BRIEN'S RECEPTION AT MALLOW TENDS TO INCREASE IT.

The Irish Editor is Presented With a Medallion of Bullets—His Spirit Still Unbroken—Donegal Tenants Arming Themselves—Steamer Founders.

LONDON, Jan. 28.—The reception accorded Mr. O'Brien last night, at Malloy, has made

Mr. Balfour's yellow face to grow more yellow still, and has set the chief secretary and his able castle assistants at work trying to devise some plan by which, even such demonstrations as the Malloy banquet may be suppressed. It is exceedingly galling to Balfour to find that after a season of imprisonment of the strictest nature, the Irish patriot and editor, nothing daunted, is again ready to enter the lists against him.

The proud spirit is still unbroken and the mind not swayed an inch from its original purpose. It is very galling, especially because the Irish secretary had selected Mr. O'Brien as the one upon whom close confinement and rigid treatment would tell the most and would the soonest break. It was not surprising to hear from Dublin this morning that the castle was disturbed or that new councils were being held. One significant feature of the banquet last night was the presentation to Mr. O'Brien of a medallion composed of the bullets taken from the bodies of the Mitchellstown martyrs.

This means that Irish patriots will never forget that sad occurrence, and that every effort will be made to perpetuate the memory of those who were shot down in cold blood by the government soldiers, and for which act no redress was given, not even the poor satisfaction of a reprimand to the men who committed the deed.

Mr. Balfour is fast discovering the spirit of patriotism which burns brightly in the heart of every true Irishman, and that hundreds of evictions and imprisonments cannot subdue the people he has so confidently undertaken to bring to his own terms.

Mr. O'Brien will not appear at many more public receptions, but it is his intention to get away somewhere and rest until parliament opens, so that he can meet and condemn to his face the man who has so successfully gained the hatred of Ireland.

Neither the Least Nor Last Demand.

BERLIN, Jan. 28.—The minister of war announces that a loan of 250,000,000 marks is required on account of the new military bill. This will enable the government to complete the military organization. The minister says he cannot promise that this shall be the last demand for cash.

The Donegal Tenants.

DUBLIN, Jan. 28.—The tenants of Donegal are arming and will withhold all rents while Mr. Blane, member of parliament, and Father McFadden, of Gweedore, are kept in prison. The peasants threaten to destroy all bridges in the county and troops are hurrying there to preserve the peace.

A Modern Battle.

DUBLIN, Jan. 28.—Con, Nationalist member of parliament, is confined in a cell at Enniskillen jail that is reeking with moisture, the window frame having rotted away from the damp.

A French Steamer Founders at Sea.

LONDON, Jan. 28.—The French steamer Suez foundered at sea as the result of a collision. Twelve of her crew were rescued.

Took It for Medicine.

NEW ALBANY, Jan. 28.—Elder J. W. Osborne, a Christian preacher, struck town Wednesday and was found drunk at McIntyre's saloon at a late hour and hauled to the station house. The prisoner had papers showing that he was authorized to preach by the Christian church at Temple, Crawford county. Of late Osborne was evangelizing at Salem, Washington county. The prisoner pleaded guilty to being drunk, but said in extenuation that he had an attack of neuralgia and taking brandy as a medicine it went to his brain, and he did not know what a spectacle he had made of himself. The mayor let the brother go, as this was his first offense.

Oil in Southern Illinois.

CHICAGO, Jan. 28.—The firm of Bradley, McLaughlin & Company, coal miners at Carmi, a small town in Illinois, while boring for coal on a farm fourteen miles south of that village, struck an oil well Tuesday, which is now flowing a fine quality of petroleum at the rate of 500 barrels a day. The indications are that the well will yield even better when the boring reaches the third strata.

Cable Road Troubles.

ST. PAUL, Minn., Jan. 28.—John A. Rosblings' Son & Company, wire cable manufacturers, have brought suit in the district court against the New York Cable Construction company and the St. Paul City Railway company for \$7,824 yet unpaid on the cable used in the road just completed here, asking for a lien on all the property of the cable road, and that the same be sold to satisfy the above claim.

A Troublesome Gas Well.

MARION, O., Jan. 28.—The gas well near here, at a depth of 105 feet, is troublesome. It sends forth water higher than the derrick, then alternates a flame of burning gas forty feet in length. The burning gas at night can be seen seven miles.

A \$10,000 NOTE.

Fair Prospects of a Long and Much Contested Suit Begun at Chicago.

CHICAGO, Jan. 28.—Daniel O'Keefe, who owns a nice house and lot in the suburban town of Cullman, received information about a year ago of the death of another O'Keefe in India, and a romantic story came along with the news of his death that a fortune of \$1,000,000 had been left, which awaited claimants. The Chicago colony of O'Keefe was very much excited about the business, and Daniel confided to Richard Bransford, a constable, the good news.

Bransford promptly volunteered to go to India and bring back Daniel's slice at once, if Daniel would give him a note for \$10,000 to secure Bransford for the expenses of the trip. Daniel gave the note and nothing was ever heard of Bransford, the Indian fortune or the \$10,000 note until yesterday, when the note turned up safe and sound in Judge Tuthill's court in the possession of Mrs. Martha C. King. She had brought suit on it against O'Keefe, and the latter not being present, a verdict of \$10,000 was given on the famous note against him and in favor of Mrs. King.

An hour later a breathless and excited lawyer appeared in Judge Tuthill's court and moved to set the finding aside upon the ground that the note was without consideration, and hence void, and was procured on false representation. The motion was entered, and will be argued next week. After Bransford got the note from the credulous O'Keefe it is asserted that he disposed of it to Edwin B. King, a young attorney, and upon his death it came into the hands of his mother, Martha King.

THE BIG WILL CASE.

The Dasher Will at Hamilton Set Aside and the Plaintiff Wins the Suit.

HAMILTON, Jan. 28.—The famous "Dasher will" case, which has been on trial in the circuit court at Columbus for the past sixteen days, has just been decided by the jury setting the will completely aside. The case has become famous from being on trial three times, and also from the amount of the estate.

The will as it stood before being set aside bequeathed \$100,000 to a law library at Columbus, \$50,000 to an art school at the same place, \$150,000 to a Columbus Female Benevolent society, \$120,000 to Dr. C. Falcones and children, of this city; \$5,000 to Mrs. Sterns, H. C. Falcones \$1,000, Presbyterian church and boards \$1,000, and \$50,000 to different persons. Set aside the will stands as follows: Cyrus Falconer, \$115,000; children of Dr. Hall Falconer, \$115,000; William G. Dasher, \$100,000; children of Charles G. Dasher, \$100,000.

Hon. Thomas Millikin, of this city, was leading counsel for plaintiffs. In 1876 the old man Dasher dropped dead on his doorstep intestate. At this time his wife was on her deathbed. While in a demented condition the will was written, the interested parties dictating to her how to dispose of her property. She was unconscious at the time that the will was being written.

MURDERER MAXWELL.

A St. Louis Physician Says He is Likely to Cheat the Gallows.

ST. LOUIS, Mo., Jan. 28.—The jail authorities are alarmed lest Hugh M. Brooks, alias Maxwell, shall cheat the gallows by committing suicide. A physician who has attended Maxwell for the last six months said last night:

"Maxwell has been in jail now for nearly three years, and every day he smoked from forty to fifty cigarettes. He smokes a brand that contains a considerable amount of morphine. His Turk-like stolidity is simply the result of continued morphine by which the sensibilities are gradually dulled and the brain rendered torpid. He is liable to drop dead any time, and may easily have had smuggled into himself enough morphine to end his life."

The Hopkins Trial.

CINCINNATI, O., Jan. 28.—Hopkins' tale was put to the crucial test this morning. His cross-examination began. While waiting for Burnett Hopkins answered in reply to questions by Judge Sage, that the wheat purchased by Hoyt on hand June 13 amounted to 4,000,000 bushels. The market price was between ninety-two and ninety-four cents. The price declined on the 14th and dropped twenty cents in two days' time. Burnett opened the cross-fire by handing Hopkins the circular dated June 13, sent out to all the banks in the country denying rumors that the Fidelity was in the deal. Hopkins said that he had superintended the forwarding of the circulars. He said he knew nothing of the deal with the Third National bank in 1881-82, until after it was over.

Fatalities Were Exaggerated.

FARGO, Dak., Jan. 28.—This section protests against the sensational statements sent to the eastern press concerning the storm and severe cold of last week, which caught many unprepared people and caused universal suffering. The fatalities, a hundred or more in number, seemed to have occurred mainly in southern Dakota and northern Iowa and Nebraska, even Kansas showing up with a few unfortunate victims of the cold. For days now the telegraph columns of the papers have been filled with guess work as to the number who perished in the blizzard, which, when the facts are ascertained, will prove untrue.

In Close Quarters.

WINCHESTER, O., Jan. 28.—Tom Johnson and Fred Hedrick were arrested this morning charged with being members of the gang which stoned the United Brethren church Wednesday night and attempted to shoot the pastor, Rev. S. Koggs, and wife. The excitement runs high in town and there are fears that they will be lynched.

Wholesale Coal Stealing.

SPRINGFIELD, O., Jan. 28.—Fifteen citizens of Brainbridge, O., including the marshal, hotel proprietor and a Presbyterian minister, have been arrested for stealing coal from cars on the Ohio Southern railroad. Extensive coal thefts at night led to the employment of detectives, whose investigations have resulted in the arrests.

A Colored Forger Arrested.

XENIA, O., Jan. 28.—Lewis Weakland, colored, of Jamestown, has been bound over to court and sent to jail for forging an order to the railroad ticket agent for two round trip tickets.

Study of Literature and History.

[Published by Request of Teachers' Assoc'n.]

The educational demand of the last ten or fifteen years has been largely for an increase in the number of branches taught, and the study of many has been so encumbered that time has been wasted; but the field of literature in the public schools is one which has been greatly neglected, yet it is one which would, and does, richly repay cultivation. In order to succeed the only requisite is that one be an enthusiastic lover and persevering student of good literature. I think that during the first four years of school life the literature should be worked in with the language work and reading; the aim should be to teach a poem, say once a month. The teacher talks to the children about the meaning, herself having the spirit of the piece, and gives it to the little ones, so that they catch it with the words, and store away for future thought, pleasure and use. This should be done until the child comes to see and love the beauties which the teacher brings out. In the earlier years, the work should be oral, but as the child is able much can be dictated. Beautiful selections for the purpose are found in all of the best readers and many song books. I might mention Tennyson's little song "What Does Little Birdie Say," Ingelow's "Seven Times One," Bryant's "Death of the Flowers." From such as these, select the most suitable verse or verses, not in any case the whole poem.

The requisites in teaching any of these are the teacher's love of the sentiment, and her ability to repeat without the text book before her. Fables teaching anecdotes and narratives of real persons may be used to advantage. The latter will tend to induce a desire to read about historical characters. I have been told the German is full of beautiful teaching anecdotes. As a rule do not let the selection be above the easy comprehension of the children, it may be the roll of the words is sufficient to catch the ear and live in the memory.

In the fifth and sixth years of school life study, as a reading exercise, some of the simple literature, instead of the ordinary reader; such as Robinson Crusoe, Dickens's Child's History of England; simple poems from Longfellow, Holmes and others, and prose selections. Teachers should see throughout each year that the regular readers are supplemented by other reading, selected with a view to form a taste for good literature. The aim is the right kind of mental food and such as will preclude the probability of indulgence in the pernicious literature which floods the country to the great injury of the youth. Occasionally the teacher might take occasion to instruct the children in any book which she may be reading. With proper handling an interest will cluster around books which they read after a while simply because the teacher had talked of them. Some one has said: "The mastery of half dozen good books has in many cases been the foundation of a literary taste which has resulted in pleasure and benefit more than can be told." A good book read aloud to the school by different members of the classes, at stated times, will interest children in the way of books. A word of commendation will often be very helpful. In regard to the study of history in some of our best schools they do not commence the study of this branch until the sixth year; that is, when the child is in his twelfth year. He then takes it as a pleasant true story book. The facts are impressed in the most pleasing way, very few dates are required, not over half dozen, if so many, and scarcely anything is memorized. Wars are touched on but lightly, but characters and lives of great and celebrated persons are studied more in detail. The facts learned in geography, reading and conversation may be brought forward to elucidate the history; and children are led to talk and exchange opinions. From the history many language and composition exercises may be drawn. If there are any points of historic interest in the neighborhood visit them with the children. If they can not visit such a place for themselves, the next best thing is to hear the teacher tell of some such place which she has seen. The recital of such, and also, their facts not found in the book, will amply pay for time and trouble spent in telling them. After one year's study or more of U. S. history, the children should have mastered the main facts, and have become so interested as to be anxious to fill in details from after study during his school life, and in maturer years, when he becomes able to enjoy the philosophy of history. After the United States other leading countries, such as England and France, should be studied in the same way. When the United States is taken up again it should be studied with more system, and I know of no better method than that of Professor Heber Holbrook. He uses the written method and divides the events of our history into three great epochs, and each epoch into three periods and makes everything cluster around these. For occasional use the straight line method is good. You take the event and follow it down through its effects from one period to another of our history. Another is to take one date and give all the events connected in any way with it. Throughout the study of history there is nothing better to fix the facts to be remembered than outlining, and that by the individuals of the class, and the use of pictures, maps, poems, &c., that gives local coloring to the narrative, is of great advantage. The classes in connection with the recitation should understand the meaning of words in the lesson and geographical position of the places named. ELIZA B. KERRY.

WALKING WAS BAD.

Doyle Knew It Was Wrong to Take Huber's Horse, but He Intended Returning the Animal.

Joe Doyle, the negro who was lodged in jail Thursday on the charge of horse stealing, is in a rather serious condition from the gun-shot wounds in his right side.

Doyle is about thirty years old. He was raised in Nicholas County, spent several years at Mt. Sterling, but has been employed in this vicinity for some time on the Maysville & Big Sandy Railroad. He tells the following story: Last Wednesday afternoon he started down to the home of a Mr. Craig near the Ripley ferry landing to see his wife, who is a servant in Craig's family. Walking was bad and it was late in the evening when he reached Joseph Huber's, near the mouth of Lawrence Creek. He had worked on the railroad in that neighborhood last summer, and knew the locality. He concluded to finish his journey on horseback, and mounting one of Huber's horses proceeded on his way, intending to return the animal. Near the mouth of Beasley Creek, he was overtaken by William Huber and brother. They had heard of Doyle's doings and thought he was trying to get away with the horse. They called to Doyle to stop, and emphasized their demands by a shot from a pistol. He jumped from the animal and started to run, frightened as he was, and as he did so they fired at him with a gun, filling his side with shot. They took him in charge, and lodged him in jail Thursday.

Dr. Browning, jail physician, thinks some of the shot penetrated the right lung. Doyle was resting easier last evening. He said he knew it was wrong to take the horse, but he didn't intend stealing it. He was better this morning, but his condition is serious, and his wounds may prove fatal.

Services at Christian Church.

Circuit Court Proceedings.

The January term of the Circuit Court ended yesterday. The court was in session fifteen days, and would have lasted longer but all the litigated cases on the civil docket were continued till next term by mutual consent.

Jailer Fitzgerald's claim amounting to \$174.60 was allowed.

The Sheriff was allowed one guard to assist in taking Charles Ramsey to the penitentiary.

County Clerk Ball was directed to pay \$800 to the Trustee of the Jury Fund.

The claim of Hon. L. W. Robertson for fifteen days services as special judge was certified to the State Auditor for payment.

In the case of Josie Woods against S. H. Poe for \$5,000 damages for breach of promise a judgment was rendered for \$3,000, and the plaintiff was allowed \$100 additional for attorney's fee.

Another Man at Last is Rewarded.

David C. Meacon is the lucky man that held one-tenth of ticket No. 69,363, which drew the second capital prize of \$50,000, from the monthly drawing of the Louisiana State Lottery, November 8th. It was his first venture, and comes as a God-send to Mr. Meacon as he was depending on his daily labor to support his family. His former residence was in Pittsburg. The night before he was to ship his household goods to this place a fire occurred and burned everything. He is a worthy and exemplary man.—Elwood (Ind.) Free Press, December 9th.

Entertainment at Sardis.

There will be two grand entertainments in "Arcade Hall," at Sardis, by the Sardis Select and Graded School on Friday and Saturday nights, February 3rd and 4th, 1888. Proceeds for the benefit of Professor Ray's Sardis Cornet band. 3t

Miss Anna Gorey returned to her home at Paris on the noon train to-day, after spending several weeks here with friends.

Mr. and Mrs. W. H. Bridges and daughter, Miss Tillie, of Waveland, Ind., are visiting his brother S. P. Bridges, of the Fifth ward.

OUR NEIGHBORS.

PLUMVILLE.

The wheat is suffering from the protracted freeze.

We are having a great deal of sickness this winter. Several deaths have already occurred.

Mrs. Wright's funeral was preached at Stone Lick, Friday, by the pastor of the Methodist Church at Orangeburg.

Misses Lizzie and Linna Wallingford, of Fern Leaf, have gone to Lebanon, Ohio, to attend college. They were escorted thither by their brother, Mr. J. W. Wallingford.

The young people of Orangeburg are preparing to give an entertainment in connection with the school which closes about the first of February.

Dr. Browning has been called to see Mr. Thomas Oliver, who has been down several days with pneumonia. Dr. Ford is unable to attend his patients, being an invalid himself.

We regret to chronicle the death of Mr. William Darnell, whose funeral was largely attended, and preached at the Stone Lick Baptist Church by Elder Jackson, the pastor. Mr. Darnell went West one year ago, where he lost his health. His widow has our heartfelt sympathy.

Mr. Lewis Collis has been appointed Justice of the Peace in the place of Mr. W. D. Corryell, deceased. We think the office has suffered nothing from the appointment. Mr. Collis is one of our most polished gentlemen, and we think will discharge his duties with credit to himself and justice to the precinct.

A NEW OHIO RAILROAD.

Flattering Prospects of One from Cincinnati to Portsmouth.

CINCINNATI, Jan. 28.—The prospects for an Ohio valley railroad from Portsmouth to Cincinnati, along the river bank, are flattering. Negotiations are pending between prominent officials connected with the Pennsylvania railroad and the Ohio & Northwestern to carry the enterprise into effect. Caden & Kline, bankers, at Buena Vista, O., in a letter to Burr W. Blair, of New Richmond, state that Gen. Warner, in connection with eastern capitalists, is seriously considering the building of the road.

The business men of New Richmond will be applied to for substantial help to the project in the way of subscriptions and donations of right of way through the town. Large land owners on the proposed line have made propositions to furnish the required help, and the enterprise will take shape early in the season.

Successful the Second Attempt.

PARIS, Ky., Jan. 28.—Last night Owen Davis, clerk of the Adams Express company at this place, and Miss Hattie, daughter of Charleston Alexander, the wealthy cashier of the Northern bank, eloped to Aberdeen and were married this morning. They were intercepted while eloping from Kansas City last week by Dr. Keely Brent, the lady's uncle, whom she was visiting, and she returned here to her parents.

Wood Chopper Killed.

AKRON, O., Jan. 28.—James Guy, aged twenty-two, unmarried, while chopping in a woods near here was fatally injured by a limb of a tree falling and hitting him on top of the head, inflicting a horrible wound.

Blowing Up Hell Gate

has been a laborious and costly work, but the end justifies the effort. Obstruction in any important channel means disaster. Obstructions in the organs of the human body bring inevitable disease. They must be cleared away, or physical wreck will follow. Keep the liver in order, and the pure blood courses through the body, conveying health, strength and life; let it become disordered and the channels are clogged with impurities, which result in disease and death. No other medicine equals Dr. Pierce's "Golden Medical Discovery" for acting upon the liver and purifying the blood.

"DID YOU NOTICE IT?"

We mean the great rush and big trade they are now enjoying at the RED CORNER CLOTHING HOUSE. It is true that this is recognized as the dull season, but we allow no dull season at our house. When trade slacks, we push it. We have lots of goods, and we are bound to sell them. Our envious competitors say we cannot last long; that no house can exist that makes such sacrifices on goods as we make. But that is nothing to you. Our loss is your gain, and as we have determined to close out choice of our

MEN'S CASSIMERE SUITS AT \$10.00,

even though they be worth from \$12 to \$20, it is to your advantage to buy them, and not consider our loss. You must take advantage of good things while you have an opportunity, and this is your opportunity. You will probably not have such another in a life time. But we are bound to push business at any cost, and you will always find us "tireless toilers for trade."

"KISSES AND HUGS."

Some of the Letters Introduced as Evidence in the Woods-Poe Breach of Promise Suit.

The breach of promise suit of Josie Woods against S. H. Poe was heard yesterday in the Circuit Court. The fair plaintiff is a resident of this city at the present time. Poe is a traveling photographer. He spent some time last summer in this locality, his car being stationed in Chester during his stay here. There was no denial of the plaintiff's petition, and she was given judgment for \$3,000, and her attorney was allowed a fee of \$100 in addition. She asked for \$5,000.

Some of the letters introduced as evidence rival the "coffee-merchant's" loving epistles in the famous Campbell-Arbuckle suit recently settled in New York.

From Carlisle, Ky., he wrote on the 12th of last June: "I send thirteen kisses and twelve Hugs and one Pinch."

June 24th he wrote from same place as follows: "I send you all the kisses and a good huggin throdie in."

September 1st he sent Josie a letter from Manchester, O., in which he says: "I want to see you and I want to Kiss you write in the month."

Unlike Arbuckle, Mr. Poe was not troubled with malaria. He enjoyed good health, and was evidently a masher from way back, judging from the following letter written from Manchester on the 25th of September:

My health is good I weigh 160 pounds I have but me fine close you wouldn't ne me if you was to see me an I have but me a fine watch all the girls is gettin stuck on me in every town I go to what will I do about that I drest up today an went down town the lady's flirtin at me on all sides of the streets a long look at that Pirty man but that is all I can't think of no body But you so I will close.

THE "Equitable" is the largest, strongest and most prosperous Mutual Life Insurance Company in the world, and its record for prompt, good faith in all its dealings with its policyholders is of the highest character. Joseph F. Brodrick, agent.

SOME of the railroad contractors down in Campbell County are having trouble with their hands. The Boehm Bros. are making a big fill on the new road at a point near Newport. They have had a large force of Italians employed, but the hands have quit and refuse to work unless their wages are paid weekly. The contractors say they can not pay until the estimates are allowed by Huntington, and one hundred and fifty negroes are now filling the place of the Italians.

SYLVESTER SOISTER and Alonzo Soister were before Mayor Pearce this morning and were each fined \$25 and costs for carrying concealed weapons. The accused hail from Manchester. They were in town last night and raised a row at a house of low repute in the Fifth ward. Deputy Marshal Dawson, assisted by his son Charley, took the party in charge and landed them in the station house. When arrested each had a pistol stuck down in his hip pocket. They had over \$250 in cash stowed away in their other pockets. They promptly paid their fines and costs, and were released.

STUCK IN SNOWDRIFTS.

RAILROADS IN DIFFERENT PARTS OF THE COUNTRY BLOCKADED.

One of the Worst Ever Known on the New York Central—Two Lives Lost—Drifts From Ten to Eighteen Feet Deep in Massachusetts—Other Affected Points.

New York, Jan. 28.—There was one of the biggest blockades yesterday known on the New York Central railway. Division Superintendent Bissell had the entire working force of his division out shovelling the snow, but at 6 o'clock last night he telegraphed to General Superintendent Toucey here that the snow blew up in the tracks as fast as it could be shovelled away and that the wind was so fiercely cold that the laborers on the tracks could not stand up against it.

Under these circumstances it was deemed foolish to send out of the depot the 6 o'clock and the 6:30 o'clock west-bound expresses, and these trains were held. The depot waiting rooms were filled with people who had expected to take these trains. Superintendent Toucey told all inquirers that he didn't expect any trains in during the night at all unless the weather moderated. The snow blockade on the Erie railway delayed all through trains about six hours.

Had Blockade in Maine.

REDDFORD, Me., Jan. 28.—The snow blockade here has not been equalled since 1883. From 4 o'clock yesterday morning until 9 o'clock last night no trains passed through here on the western division. At 9 o'clock last night seven passenger trains and one freight were blocked within a mile of this city on both divisions of the Boston & Maine railway. The tracks on the eastern division are clearer, and had it not been for the mishap yesterday afternoon all trains would have been able to get through to their destination.

On the western division the snow is badly drifted, and but little headway is being made. A wrecking train worked for seven hours last night at Old Orchard, getting an engine and snow plow on the track. The greatest obstruction on the western division was at McIntyre's cut, near Redford. Five trains were at one time snowed in there. A large crew of men worked three hours before the trains could make any headway. Passengers of all the delayed trains were provided with provisions by the railroad company.

A Blizzard in Massachusetts.

PITTSFIELD, Mass., Jan. 28.—The worst blizzard experienced in Berkshire county since 1866 began Wednesday night and raged through yesterday with unabated fury. The velocity of the gale was estimated at forty miles an hour in the valleys and from sixty to seventy miles an hour on the hills. The snow fell steadily for fourteen hours and piled up in drifts in the country roads from ten to eighteen feet high.

The railroad trains from all directions were late all day. During the night the cuts on the Boston & Albany filled up fast, and snow plows were constantly kept running, and hundreds of men shovelling. The Fitchburg and Housatonic railroads are badly blocked.

Conductor and Brakeman Killed.

TROY, N. Y., Jan. 28.—Conductor Cudmore and Brakeman Wheelock, of the Fishburg train, were killed last night in a collision. Three freights were stalled in the drifts at Williamstown when the train which left this city at 10 o'clock collided with the caboose at the end of the freight in which Cudmore and Wheelock were, and when the debris was raised they were found dead. It is reported that several persons on the passenger train were injured but their names have not been obtained.

At Michigan City, Indiana.

MICHIGAN CITY, Ind., Jan. 28.—The Louisville, New Albany & Chicago passenger train from Indianapolis to this city became stalled in a snow bank eight feet deep, four miles south of town. Wednesday night, and was obliged to remain there until 3 o'clock yesterday afternoon before it could be dug out. The passengers remained in the cars all night.

At Dubuque, Iowa.

DUBUQUE, Iowa, Jan. 28.—A light snow and high wind have blockaded the roads in every direction, and trains are behind time. Some of the mails are twenty-four hours late. The blockade is being raised, and full communication is expected to be made to-day on all the roads. The drifts along the road are very high, and the snow is difficult to handle.

At Binghamton, New York.

BINGHAMTON, N. Y., Jan. 28.—All trains on the Erie are laid out at points east and west of this city. Only one train has arrived from New York in thirty hours, and there is small chance of another getting through before night. The snow has drifted badly in all directions and trains are either abandoned or running "wild."

The Reading Don't Escape.

READING, Pa., Jan. 28.—The trains on the Reading railroad were all more or less delayed this morning. On the Schuylkill & Lehigh branch the snow drifts are from ten to fifteen feet deep.

Storm on the Pacific.

PORTLAND, Ore., Jan. 28.—A fierce storm has been raging about the mouth of the Columbia river, for the past two days. Today the maximum velocity of the wind reached sixty-two miles an hour. During the fury of the gale last night, rockets were fired from half dozen points along the sea horizon, and at midnight guns were heard. The life savers made several attempts to launch their boat, but the sea was running so high that they were forced to abandon the task. When morning came four vessels were seen pounding on the sands. There was snow in the air and the seamen who could be seen lashed to the masts suffered terribly in the blasts. The crew of one vessel was rescued late in the afternoon, the five savers having shot a line over her gunwales.

Indications of a Flood in the Ohio.

PITTSBURG, Jan. 28.—Indications are extremely promising for a big flood should a sudden thaw begin on the mountains and at the head waters of both rivers. There is fifteen inches of snow at Oil City, thirteen at Brookville and sixteen at Johnstown. The rivers are stationary and still closed at many places. It is clear and freezing at Pittsburgh, but the signal service predicts warmer weather. A big snow drift has blockaded the Allegheny Valley railroad for one mile between Corry and Brockton. Should a general thaw-out come this means a flood along the Ohio that would do great damage.

"The Proper Study of Mankind is Man."

says the illustrious Pope. If he had included woman in the list, he would have been nearer the truth, if not so poetical. Dr. R. V. Pierce has made them both a life study, especially women, and the peculiar derangements to which her delicate system is liable. Many women in the land who are acquainted with Dr. Pierce only through his "Favorite Prescription," bless him with all their hearts, for he has brought them the panacea for all those chronic ailments peculiar to their sex; such as leucorrhoea, prolapsus and other displacements, ulceration, "internal fever," bloating, tendency to internal cancer, and other ailments. Price reduced to one dollar. By druggists.

Rev. David Gaddis, of Ripley, was seriously hurt Thursday by a fall on the icy pavement.

THE INCURABLE CURED!

HORTONVILLE, Ky., Feb. 24, 1897. Gentlemen—Seven years ago a sore developed on my nose from a scratch. I tried a few simple remedies, but the sore would not yield. I grew worse every year for seven years. Many thought I had a cancer. Over a year ago I commenced taking S. S. S., and two dozen bottles entirely cured me. When I began with Swift's Specific I was in very poor health, and could hardly drag about. After I had finished the course of S. S. S. I was strong and buoyant, and had a good appetite. I regard it as a most valuable medicine for ladies in weak, delicate health. It is a household medicine with me. Yours respectfully, Mrs. R. W. Wilson.

SPARTANBURG, S. C., April 2, 1897. Gentlemen—For twenty years I have had a sore on my left cheek. It had gradually been growing worse. The many physicians whom I had consulted were unable to do me any good. Last fall a year ago I began using S. S. S. At first it inflamed the sore, and it became more violent than ever; so much so, indeed, that my family insisted that I should leave off the medicine. I persisted in using the S. S. S. At the end of two months the sore was entirely healed. Thinking that the evil was out of my constitution, I left off the medicine; but in November, ten months after, a very slight breaking out appeared. I at once began again on S. S. S., and now that it is also disappearing, I have every faith in S. S. S. It has done me more good than all the doctors and other medicines I ever took. Yours truly, A. K. Shander.

WILSON, N. C., April 12, 1897. Gentlemen—Two or three years ago a cancer came on my face. It soon grew to be quite large. It wore me, and my general health was very poor. Last September I began a course of S. S. S., which I have continued to the present time with the happiest result. The cancer has entirely disappeared, there being no evidence or symptom of a cancerous character left. My general health is good now, and my appetite better than it has been in years. I am 82 years old, and to-day I am working in the field planting corn. Yours truly, JONAS LUMBERG.

Gentlemen—I had a sore on my upper lip for eight years. Seven different doctors attempted in vain to heal it. One gave me a small vial for five dollars, which was a "certain cure." It is needless to say that it did me no good. About two years ago I became quite uneasy, as people thought I had a cancer, and I took a course of eighteen bottles of S. S. S. The result has been a complete cure. The ulcer or cancer healed beautifully, leaving scarcely a perceptible scar. From that day I have been in excellent health. The Specific having purified my blood thoroughly, increased my appetite and perfected my digestion. In a word, I feel like a new woman, and, best of all, the eight year ulcer is gone entirely. Yours sincerely, Mrs. W. F. Cannon.

LOUISIANA CAPITAL PRIZE, \$150,000

"We do hereby certify that we supervise the arrangements for all the Monthly and Quarterly Drawings of the Louisiana State Lottery Company, and in person manage and control the Drawings themselves, and that the same are conducted with honesty, fairness, and in good faith toward all parties, and we authorize the Company to use this certificate, with facsimiles of our signatures attached, in its advertisements."

Ed. J. McGuire
J. T. Early
Commissioners.

We the undersigned Banks and Bankers will pay all Prizes drawn in the Louisiana State Lottery which may be presented at our counters. J. H. OGLEBERRY, Pres. La. National Bk. F. LANAUX, President State Nat'l Bk. A. EADWILL, Pres. N. O. Nat'l Bk. CARL KOHN, Pres. Union Nat'l Bank. UNPRECEDENTED ATTRACTION! Over Half a Million distributed!

LOUISIANA STATE LOTTERY COMPANY Incorporated in 1888 for twenty-five years by the Legislature for educational and charitable purposes—with a capital of \$1,000,000, to which a reserve fund of over \$500,000 has since been added.

By an overwhelming popular vote its franchise was made a part of the present State Constitution adopted December 2, A.D. 1878. The only Lottery ever voted on and endorsed by the people of any State.

It never closes or postpones. Its Grand Single Number Drawings take place monthly, and the Grand Quarterly Drawings regularly every three months—March, June, September and December.

A splendid opportunity to win a Fortune. 2nd Grand Drawing, class B, in the Academy of Music, New Orleans, TUESDAY, FEB. 7, 1898—23rd Monthly Drawing. Capital Prize, \$150,000.

NOTICE.—Tickets are \$10 only; Halves, \$5. Fifths, \$2; Tenths, \$1.
